

ORTHOTECH™

CATALOGUE

The knitted cotton knee brace encloses the knee along the curve. It's 4 way stretch knit provides firm support for the maintenance of joint structure thereby providing the right kind of protection to a weak or an injured knee.

OR-2050 Knee Brace

MAX SERIES

Indication:
Knee pain
Muscle fatigue

SUPPORT LEVEL:MILD

The knitted cotton elbow support encloses the elbow tightly along the elbow curve. It's 4way stretch knit provides firm compression over the elbow thereby providing effective support to a weak or an injured elbow.

OR-3040 Elbow Support

MAX SERIES

Indication:
Muscle Weakness

SUPPORT LEVEL:MILD

The knitted cotton ankle brace encloses the ankle along the curve. It's 4 way stretch knit helps provide firm joint support and gentle compression to a weak or an injured ankle.

OR-4030
Ankle Brace

MAX SERIES

Indication:
Ankle Fatigue.
Weak ankle

SUPPORT LEVEL:MILD

The bilateral spiral stays provides extra support to the knee joint and avoids extreme knee rotational motion. The circular insert leaves the patella free from pressure and provides local relief. The surrounding profile ring ensures firm control of the patella and reduces its medio lateral displacement.

OR-2131
Open Patella
Knee Support
With Stays

Indication:
Knee instability
Patellar subluxation/ tilting
Collateral ligament injury
Muscle strain/ sprain

PRO MAX SERIES

SUPPORT LEVEL:FIRM STABLIZING

The bilateral spiral stays provides extra support to the knee joint and avoids extreme knee rotational motion. The circular insert leaves the patella free from pressure and provides local relief. The surrounding profile ring ensures firm control of the patella and reduces its medio lateral displacement.

OR-2131L
Open Patella
Knee Support
With Stays

Indication:
Knee instability
Patellar subluxation/ tilting
Collateral ligament injury
Muscle strain/ sprain

PRO MAX SERIES

SUPPORT LEVEL:FIRM STABLIZING

The circular insert leaves the patella free from pressure and provides local relief. The surrounding profile ring ensures firm control of the patella and reduces its medio lateral displacement.

OR-2113 Open Patella Knee Support

Indication:
Weak knee
Mild strain/sprain
Arthritis

PRO MAX SERIES

SUPPORT LEVEL: MODERATE

High Quality Neoprene Helps relieve muscle and joint discomfort. The circular insert leaves the patella free from pressure and provides local relief. The surrounding profile ring ensures firm control of the patella and reduces its medio lateral displacement.

OR-2122 Open Patella Knee Support

PRO MAX SERIES

Indication:
Weak knee
Mild strain/sprain
Arthritis

SUPPORT LEVEL: MODERATE

High Quality Neoprene Helps relieve muscle and joint discomfort. The circular insert leaves the patella free from pressure and provides local relief. The surrounding profile ring ensures firm control of the patella and reduces its medio lateral displacement.

OR-2122 L Open Patella Knee Support

PRO MAX SERIES

Indication:
Weak knee
Mild strain/sprain
Arthritis

SUPPORT LEVEL: MODERATE

The additional triangle pad cushion places gentle, targeted pressure on elbow tendons and muscles, providing relief. Helps provide firm stabilizing protection, relief and compression.

OR-3121 Tennis and Golf Elbow Support

Indication:
Lateral epicondylitis
(Tennis elbow)
Medial epicondylitis
(Golfer's elbow)

PRO MAX SERIES

SUPPORT LEVEL:FIRM STABLIZING

The bilateral spiral stays provides extra support to the elbow joint and avoids extreme elbow rotational motion. Helps provide firm stabilizing protection, relief and compression.

OR-3112 Elbow Support With Stays

PRO MAX SERIES

Indication:
Tendonitis
Mild strain/sprain
Arthritis

SUPPORT LEVEL: MODERATE

Permits full range
of movement
while providing support.
Provides constant
heat and compression

OR-6118 SACRO LUMBAR SUPPORT

PRO MAX SERIES

Indication:
Lower back pain
Muscle strain/ sprain

SUPPORT LEVEL:MODERATE

Breathable neoprene, double knit nylon provides constant heat and compression.

Helps relieve lumbar region back pain due to muscle fatigue or strain.

**OR-6127
SACRO
LUMBAR
SUPPORT**

PRO MAX SERIES

Indication:
Lower back pain
Muscle strain/ sprain

SUPPORT LEVEL: MODERATE

Helps relieve pain through pressure on injured wrist and provides firm support around weakened and strained area. It's adjustable hook and loop strap ensures comfortable fit and stabilization during activities.

OR-5128 Wrist Support

PRO MAX SERIES

Indication:
Weak wrist
Palm injury

SUPPORT LEVEL: MODERATE

Helps relieve pain through pressure on injured wrist and provides firm support around weakened and strained area.

It's adjustable hook and loop strap ensures comfortable fit and stabilization during activities.

OR-5110 Wrist Support

PRO MAX SERIES

Indication:
Weak wrist
Palm injury

SUPPORT LEVEL: MODERATE

Provides support and compression for weak or injured ankle. Open toe and heel design allows full range of movement. Relieves pain due to strain or stiffness. Adjustable strap under heel area for additional comfort.

OR-4111 ANKLE SUPPORT WITH STRAPS

PRO MAX SERIES

Indication:
Mild ankle sprain

SUPPORT LEVEL: MODERATE

Extra pad applies pressure on the tendon below the kneecap for improved patella tracking. Provides symptomatic relief of pain from chondromalacia, tendinitis, jumper's knee or Osgood- Schlatter. Unique strap design fits all knee sizes with adjustable support.

OR-2311 Knee Strap

Indication:
Osgood - Schlatter's
Syndrome
Patellar tendinitis
(Jumper's knee)

SUPER MAX SERIES

SUPPORT LEVEL:FIRM STABLIZING

Four pliable metal stays provide extra support to back muscle and joint, and limit extreme back motion. Hook and loop closure allows adjustable compression. Beneficial for patients with lower back pain.

OR-6217 Sacro Lumbar Support

Indication:
Muscle strain/ sprain
Low back pain

SUPER MAX SERIES

SUPPORT LEVEL:FIRM STABLIZING

Hook and loop closure design with opposite fastening design for easy application, optimal fit and extra stabilization.

Open patella design with additional donut shaped patella pad helps prevent abnormal tracking of the patella and relieve pressure on patella.

OR-2437 Open Patella Knee Support

Indication:
Weak knee
Mild strain/sprain
Arthritis

SUPER MAX SERIES

SUPPORT LEVEL:FIRM STABLIZING

Bilateral spiral stays provide extra support for the knee joint, and avoid extreme knee rotational motion. Anterior and posterior hook and loop closure for extra stabilization and custom fit. Breathable AEROPRENE keeps skin dry and comfortable.

OR-2446
Open Patella
Knee Support
With Stays

Indication:
Knee instability
Collateral ligament injury
Patellar subluxation/ tilting
Muscle strain

SUPER MAX SERIES

SUPPORT LEVEL:FIRM STABLIZING

Breathable neoprene, double knit nylon provides maximum support to the mid and lower back without restricting normal movement. The pliable stays on the back provide extra support, while retaining body heat for constant moist heat to the entire lower back muscle group. Hook and loop Velcro closure allows for a wide range of adjustable compression. Beneficial for patients with lower back pain.

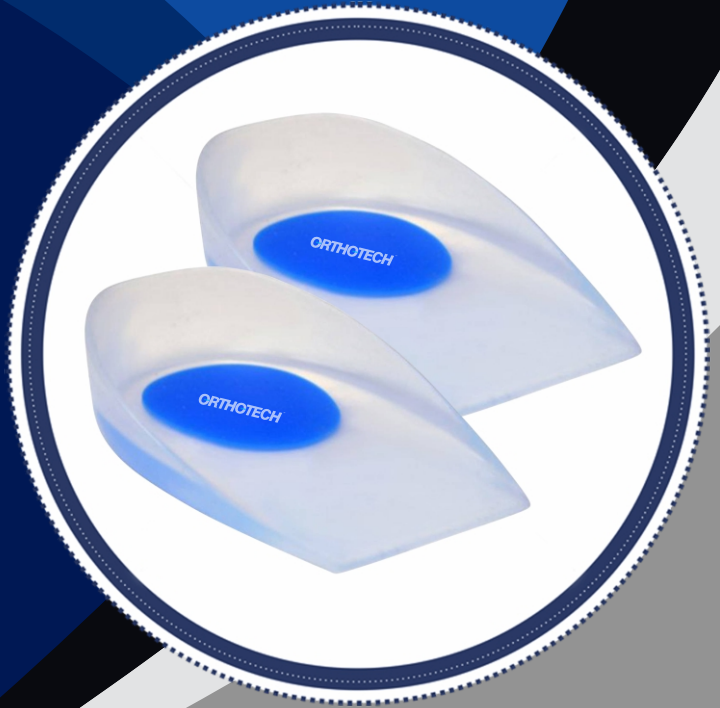

OR-6136
Sacro Lumbar
Support

Indication:
Muscle Strain/sprain
Low back pain

SUPER MAX SERIES

SUPPORT LEVEL:FIRM STABLIZING

The dual layer construction of these heel pads with its shock absorbing properties provides amazing support and comfort to your feet all day long. Made with 100% medical grade silicone gel, these heel cups are hypoallergenic, non-toxic, non-flammable and odor free.

OR-7009 SILICON HEEL PAD

Indication:
